

Farmville

Farmville Corporate Park consists of over 300 acres and is dedicated to light industrial use. Protective covenants have been adopted in order to maintain the appearance of the park, preserve land values, and protect the investment of current and future park occupants. Phase I of the park (50 acres) is fully served with water, sewer, natural gas, and electric services.

The Farmville Corporate Park is less than 30 minutes from the Global TransPark (Foreign Trade Zone 214) via US 258 and just 20 minutes from I-95 via US 264.
